# Pursue the Adventure

Route 66 is the symbol of American's love affair with cars and the power, freedom and adventure of the open road. True to this spirit, Phoenix Gold introduces the Limited Edition Roadster 66. The ultimate amplifier, it combines phenomenal power with design elegance to let you experience the road as it is meant to be — ensconced in sound

ROADSTER

### Key features:

5 Channel power amplifier High-quality components Massive heatsink On board protection IRFZ44 power supply mosfets Wide range input sensitivity adjustment Variable bass boost Robust power device clamp bars

#### 4 channel class A/B amplifiers:

Premium circuit board construction

Triple Darlington power amplifier stages with complementary bi-polar output transistors Built-in electronic crossover Dual power supply design

#### Subwoofer amplifier:

High efficiency class D amplification Built-in electronic crossover Remote low pass level control (LPL)

#### **Specifications:**

**4 Channel Crossovers** 

Effective Damping Factor . . . . . 6.35 @ 4 ohms

Maximum Sensitivity . . . . . . . 200mV at clipping Bass Boost . . . . . . . . . . +18dB @ 45Hz

#### Low Pass Filter Frequency Response: 40 to 400Hz Lowpass, 18dB per octave High Pass Filter Frequency Response: 40 to 400Hz Highpass, 18dB per octave

Low Pass Filter Frequency Response: 30 to 265Hz Lowpass, 18dB per octave Subsonic Filter Frequency Response: 5 to 55Hz Highpass, 18dB per octave
