

*PHOENIX GOLD*

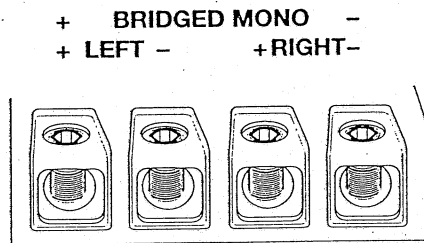

*Bandit 1895*

LIMITED EDITION  
POWER AMPLIFIER

**POWER**

**SPEAKER OUTPUTS**

The Bandit 1895 limited edition amplifier is designed to aesthetically complement Phoenix Gold's Outlaw 1845 Limited Edition amplifier. Apart from appearance, the Bandit is identical in operation and performance to an M50 amplifier. However, please use the diagram above as a reference when making power and speaker connections to the Bandit, as the terminals used for power and speaker connections differ from those shown in the supplied M50 manual. The M50 manual is applicable to the Bandit in all other respects.
